

**Core6 Environmental** is an energetic and exciting consulting firm that provides a range of environmental services to industry, government, and Indigenous Nations, businesses, and organizations. We are known in the environmental consulting industry for our commitment to high quality environmental science that withstands regulatory and peer-review; for finding clear solutions to complex problems; and for our dedication to working collaboratively with our clients to achieve successful project outcomes.

We are currently looking for a full-time, permanent **Environmental Engineer or Scientist** to join our team in the Vancouver/Lower Mainland region of British Columbia. Under the guidance and mentorship of our senior consultants you will be expected to complete projects with clearly defined objectives and tasks including:

- Contaminated Site Assessment and Investigation
- Remediation of Contaminated Sites
- Sediment Assessment and Investigation
- Environmental Management on Construction Sites

#### **Qualifications and Requirements**

- Environmental engineering or sciences degree
- Registered EIT/GIT/A.Ag.
- Contaminated Sites investigation and remediation consulting experience including environmental monitoring and sampling would be an asset
- Familiarity and experience working with BC provincial and Canadian federal acts, regulations, guidance, and protocols
- Valid Class 5 driver's license with access to a vehicle
- Strong scientific report writing skills
- Excellent communication and collaboration skills
- Strong time management skills
- Creative-thinker and confident with sharing thoughts and ideas for continuous improvement
- Willing to travel and when necessary, work overtime to meet project schedules

We offer a competitive compensation package commensurate with experience and credentials, including salary, paid vacation time, medical and dental benefits, flexible work hours, professional development opportunities, health and safety training, and the opportunity to work directly with some of the industry's most senior and accomplished technical experts and project managers. Given the nature of the role, it is expected that your time will be divided between the office and the field. Core6 Environmental is an equal opportunity employer and encourages all qualified candidates to submit resumés and letters of introduction, for consideration.

Resumés and Letters of Introduction may be forwarded to [hr@core6.ca](mailto:hr@core6.ca). Please include the opportunity title (HR-026) in your email subject line.
