

Core6 Environmental is currently looking for a full-time, permanent **Intermediate Engineer or Scientist** to join our team. We are an energetic and exciting consulting firm that provides a range of environmental services. We are known for the quality of our work, strong technical skills and regulatory knowledge.

We are currently looking for a full-time **Intermediate Environmental Geoscientist or Engineer** with experience performing contaminated sites investigations to join our team in the Vancouver/Lower Mainland region of British Columbia. The position is suited for individuals with 3 to 7 of years contaminated sites experience in a consulting environment. Under the guidance and mentorship of our more senior staff, you will be expected to provide support on projects with clearly defined objectives and tasks.

Qualifications

- Engineering, Geological Engineering, Geology, or Earth Sciences degree
- Current or eligible for EGBC or BCIA designation (EIT, GIT, AAg, PEng, PGeo, PAg)
- 3+ years of field experience in Contaminated Sites Assessment, and Environmental Construction Monitoring
- Experience with BC provincial and Canadian federal acts, regulations, guidance, and protocols
- Valid Class 5 driving licence with access to a vehicle

Assets:

- Curiosity to learn and gain technical knowledge from your peers and mentors and confident with sharing information and expertise
- Strong scientific report writing skills
- Willing to travel and when necessary work overtime to meet project schedules
- Excellent communication and collaboration skills
- Strong time management skills

Salary Range

The expected base salary range for the qualifications listed above is \$70,000-\$85,000 per year. This salary range may be adjusted for additional qualifications, experience and desirable assets.

Why Core6?
